

Welcome To Original Parts Group

We've Expanded (Again) Into A New 2-Acre Facility To Better Serve You!

Largest Inventory Anywhere

The first home of the Original Parts Group was located in Anaheim, California and was approximately 1200 square feet. That was over 19 years ago and since then we have moved six times, always going to larger and larger facilities to expand our product line and improve our customer service. Our newest facility is located on over 2 acres (90,000 square feet), making it the largest operation in the United States devoted exclusively to GM A-body parts and accessories. There is over 50,000 square feet under roof, with a further 4,000 square feet under construction. We are located on Bolsa Ave., a main thoroughfare in Huntington Beach, California, directly across the street from the southern California headquarters facility of the Boeing Corporation. With the operational capabilities we have in this enormous new building, we are able to pull, pack, and fill orders for shipping with unparalleled accuracy and speed. We would like to thank you, our loyal customers, for this explosive growth and support through the years. Be assured that we will continue to uphold Original Parts Group's company mission: To offer the finest reproduction and aftermarket parts and accessories for GM A-bodies at the very best prices anywhere. So, we would like to say.... *Thank you very much for shopping at Original Parts Group.*

General Information

Credit Cards

You may place your order using VISA, MASTERCARD, AMERICAN EXPRESS, or DISCOVER. When placing your credit card order, be sure to include your name as it appears on the card, the entire card number, the date of expiration, and the security code located on the back of VISA, MasterCard, Discover and the front of American Express. **IMPORTANT:** We must be able to verify the shipping address as the credit card holder's. Minimum credit card purchase is \$20.00.

Money Orders & Cashier's Check

Money orders, cashier's check and certified checks are accepted. On pre-paid mail orders, this is the fastest method of insuring that your order is processed as quickly as possible, usually within 24 hours.

Personal Checks

To use a personal check or business check on pre-paid orders, the name, address, and check number must be pre-printed on the check. Only first party checks will be accepted. All orders paid by personal check are held 20 business days pending check clearance. If you are mailing your order and need the parts in a hurry, we recommend sending a money order, cashier's check, or paying by any of the major credit cards that we accept.

Prices

The prices in this catalog were in effect at the time of printing, and supersede all prices in any previous OPG publication. OPG reserves the right to change prices without notice. Availability of all parts and accessories in this catalog subject to change without notice. OPG reserves the right to discontinue products, services, and accessories without notice.

Back Orders

Many items in our giant inventory move quickly, and rarely are we out of stock on any items for any length of time. Over 90% of all items that are out of stock at the time you place your original order are in within 5 days. We maintain a sophisticated back order tracking system in our computer that automatically ships any items due to you when they become available. Normally, back orders take as little as 5 days to receive, but can take as much as 30 days. For an estimated time of arrival, call our customer service department at 1-800-243-8355.

Sales Tax Information

Orders outside California are exempt from California State Sales Tax at the time of this printing. California residents are required to add sales tax. Due to the periodic unforeseen changes in the California Sales Tax and Federal Interstate Tax System, rates are subject to change. The current California State Sales Tax at the time of this printing is 7-3/4 %.

1970-72 "Desert Cooler" 4-Row Radiators

- Larger tanks for more capacity
- Extra fins for improved cooling
- Bolts in to all A-bodies
- Accepts factory fan shrouds
- More cooling at half the price of aluminum radiators

\$239.95

These radiators are a direct bolt-in and offer better cooling than a standard 3-row because they have an extra cooling row, and they have slightly larger tanks to hold more coolant. Designed to allow a factory fan shroud to bolt right up. Excellent cooling at only half the price of an aluminum radiator!

Be Cool Super Street Cooling Module Assembly

NEW!

STARTING AT

\$1070.95

If you're running an ultra-high performance engine in your vehicle, we've got the cooling system you need. Be Cool's Super Street Series Power Cooling Module Assemblies can take the heat! Here's a system that can take engines rated up to 400 dyno-rated horsepower for 1964-67 and 700 dyno-rated horsepower for 1968-77 and provide cool, efficient circulation. Each module contains a Be Cool aluminum, dual 1" core, crossflow performance radiator with oval fluted tubes; dual 11", high-torque black electric puller fan set with a vented shroud; a complete set of aluminum fan mounting brackets with hardware; a diamond-cut, vented coolant recovery tank; a primary fan wiring harness with a 40-amp relay, and a billet radiator cap. A secondary wiring harness is also included to independently control the second fan. The electric fans in this module are designed to engage at 195-degrees and switch off when the coolant temperature reaches 175-degrees.

Zoops Bow Tie Billet Radiator Cap

\$17.95

Expertly machined from 6061-T6 aluminum, this radiator cap has the Chevrolet Bow Tie ball billed into the top for that custom-made look. After machining, these exquisite caps are polished to a high luster, adding sparkle to your engine compartment. Cap has a 17-lb. pressure rating and is officially licensed by GM.

Stainless Steel 180° Thermostat

\$12.95

Maintaining a consistent engine temperature allows your car to operate at peak power and efficiency, regardless of the driving conditions. Your car's factory thermostat basically just cycles open and shut; not exactly promoting cooling efficiency. The JET Low Temp Stat on the other hand offers consistent engine cooling and increased horsepower. Its advanced design reduces engine temperature and provides precise metering of water throughout the engine. The Jet Low Temp Thermostat is made from stainless steel and comes with a lifetime warranty.

These high-performance thermostats are designed to resist large variations in coolant pressures that occur at high rpms where coolant temperature and pressure fight for control of the thermostat, keeping it from opening at its designated temperature. The balanced HP thermostat features all brass and copper construction, and opens at the right temperature regardless of engine rpm.
