

# Welcome To Original Parts Group

## We've Expanded (Again) Into A New 2-Acre Facility To Better Serve You!

**Largest Inventory Anywhere**

The first home of the Original Parts Group was located in Anaheim, California and was approximately 1200 square feet. That was over 19 years ago and since then we have moved six times, always going to larger and larger facilities to expand our product line and improve our customer service. Our newest facility is located on over 2 acres (90,000 square feet), making it the largest operation in the United States devoted exclusively to GM A-body parts and accessories. There is over 50,000 square feet under roof, with a further 4,000 square feet under construction. We are located on Bolsa Ave., a main thoroughfare in Huntington Beach, California, directly across the street from the southern California headquarters facility of the Boeing Corporation. With the operational capabilities we have in this enormous new building, we are able to pull, pack, and fill orders for shipping with unparalleled accuracy and speed. We would like to thank you, our loyal customers, for this explosive growth and support through the years. Be assured that we will continue to uphold Original Parts Group's company mission: To offer the finest reproduction and aftermarket parts and accessories for GM A-bodies at the very best prices anywhere. So, we would like to say.... *Thank you very much for shopping at Original Parts Group.*

## General Information

### **Credit Cards**

You may place your order using VISA, MASTERCARD, AMERICAN EXPRESS, or DISCOVER. When placing your credit card order, be sure to include your name as it appears on the card, the entire card number, the date of expiration, and the security code located on the back of VISA, MasterCard, Discover and the front of American Express. **IMPORTANT:** We must be able to verify the shipping address as the credit card holder's. Minimum credit card purchase is \$20.00.

### **Money Orders & Cashier's Check**

Money orders, cashier's check and certified checks are accepted. On pre-paid mail orders, this is the fastest method of insuring that your order is processed as quickly as possible, usually within 24 hours.

### **Personal Checks**

To use a personal check or business check on pre-paid orders, the name, address, and check number must be pre-printed on the check. Only first party checks will be accepted. All orders paid by personal check are held 20 business days pending check clearance. If you are mailing your order and need the parts in a hurry, we recommend sending a money order, cashier's check, or paying by any of the major credit cards that we accept.

### **Prices**

The prices in this catalog were in effect at the time of printing, and supersede all prices in any previous OPG publication. OPG reserves the right to change prices without notice. Availability of all parts and accessories in this catalog subject to change without notice. OPG reserves the right to discontinue products, services, and accessories without notice.

### **Back Orders**

Many items in our giant inventory move quickly, and rarely are we out of stock on any items for any length of time. Over 90% of all items that are out of stock at the time you place your original order are in within 5 days. We maintain a sophisticated back order tracking system in our computer that automatically ships any items due to you when they become available. Normally, back orders take as little as 5 days to receive, but can take as much as 30 days. For an estimated time of arrival, call our customer service department at 1-800-243-8355.

### **Sales Tax Information**

Orders outside California are exempt from California State Sales Tax at the time of this printing. California residents are required to add sales tax. Due to the periodic unforeseen changes in the California Sales Tax and Federal Interstate Tax System, rates are subject to change. The current California State Sales Tax at the time of this printing is 7-3/4 %.

# Por-15

## Por-15 Blackcote

Glossy black coating

STARTING AT

**\$23.95**

A permanent black glossy coating designed for application over painted or unpainted metallic surfaces. Non-sensitive to UV light, highly flexible and non-porous. Extremely scratch & chip resistant & strengthened by exposure to moisture.

C220225	1-quart.....	each	<b>39.95</b>

## Por-15 Rust Preventative Paint

Available in pint, quart or gallon

STARTING AT

**\$22.95**

Stop rust permanently with POR-15. Unlike ordinary paints, POR-15 is designed to be coated right onto rusty surfaces, leaving a beautiful, rock-hard finish that won't crack chip or peel. Use it to coat a rusty frame, floor and trunk pans. The secret lies in the POR-15 curing process. Unlike paint, POR-15 cures by drawing moisture from the atmosphere. Paint, on the other hand, cures through the process of solvent evaporation through pores. Those same pores allow microscopic amounts of air and moisture to gradually reach the surface of the painted metal. POR-15 doesn't have those pores, and thus moisture and oxygen cannot reach the metal surface, and therefore no rust can occur. Eliminate stone chips while your at it. POR-15 is so tough, that some folks describe it as "Powdercoat in a can". Use it on your chassis and you'll be surprised at how little effect gravel roads have on the finish. Furthermore, POR-15 is very flexible and can withstand much twisting and bending without cracking. Use POR-15 on anything you want to protect permanently from rust, stone chips, or other common paint failures.

Available in: Black, gray, and silver.

## Por-15 Marine Clean

Quart or gallon

STARTING AT

**\$6.95**

MARINE CLEAN degreases in one application without leaving residues, noxious fumes or flammable solvents. No other cleaner works as fast or as well. It makes petroleum-based cleaners almost obsolete because MARINE CLEAN diluted with water 3,4,5, and even 10 times it's volume while remaining even more potent than other cleaners. MARINE CLEAN grease, oil, mildew, algae, musty odors, soap films, and wax. Before applying ANY rust preventative paint or coating, you must remove any oily film or residue. With MARINE CLEAN you can be absolutely certain of good adhesion. **Applications: Engines, fuel tanks, frames, floor pans, suspension components, transmissions, rubber, nylon, vinyl, grease traps etc...**

## Por-15 Metal Ready

STARTING AT

**\$16.95**

METAL-READY provides the best adhesion on any surface, including aluminum and shiny polished metal surfaces. The simple one-step process gently etches metal, creating an ideal anchor pattern for coating such as POR-15, while simultaneously leaving a zinc phosphate film to promote chemical bonding of paint and steel. After thoroughly degreasing your work piece, apply environmentally safe, METAL-READY to both neutralize any rust and etch clean bare metal. This will allow better adhesion of POR-15 or any other paint or coating. METAL-READY is not caustic, corrosive, toxic or flammable. **Application: removes surface rust in minutes, insures perfect paint adhesion, coats metal w/zinc phosphate, provides perfect base for all paints, gives better welding conductivity without harmful residues and is reusable.**

### Por-15 Tie-Coat Primer

Quart or gallon

STARTING AT

**\$22.95**

POR-15 TIE-COAT PRIMER was created as an "interlocking" primer for painting over top of POR-15 with any type of color of paint you choose. There's no need to buff-up or de-gloss the POR-15 surface. Tough, yet sandable single polyurethane primer component with special adhesion characteristics that make it perfect for most painted surfaces. TIE-COAT primer is highly resistant to penetrating top coats like: laquers, enamels and two-component finishes. It also sands very smooth too...

### Por-15 Epoxy Putty

**\$23.95**

It's so strong you can drill and tap it, yet gentle enough that you can apply it with your bare fingers. Since it's WATER BASED, you can simply wet your fingers and work it until it is almost perfectly smooth before it dries. Eliminating lots of sanding. But when it cures, it's ROCK HARD, making it perfect for repairing steel, plastics, concrete etc. Amazingly, it even sticks to damp surfaces and will cure underwater. Features: **mixes like clay, hardens like steel, easy to use, cures in water, no measuring or weighing, stays in place & doesn't slump or sag, great insulator, malleable consistency, fill in anywhere, can be sanded, drilled, machined, sawed, & painted**

### Por-15 Dry-Air Spray Gun Filter

**\$9.95**

Downstream moisture will ruin your spray job. Stop failures with our direct in-line filter at the gun. This great filter will absorb up to one (1) fluid ounce of moisture and insure a perfectly dry system from start to finish every time. It absorbs oil aerosols, condensed moisture and contaminants as small as .01 microns. It attaches directly to the air inlet of your spray gun and as air passes between the filter's compressed layers, particles and moisture are trapped. A must when spray painting POR-15.

### Por-15 Power Mesh Reinforcing Fabric

**\$6.95**

The most effective reinforcing fabric available. While most fabrics tend to bunch or bulge, POWER MESH lays flat, nicely, while you coat it with POR-15. It's perfect for repairing holes in steel, fiberglass wood or even many plastics. Use it to "bridge" holes in floors, trunk pans, or even quarter-panels. It's unbeatable when combined with POR-15 and POR Epoxy Putty.

### Por-15 Fuel Preservative & Stabilizer

**\$18.95**

When fuel sits for days or weeks at a time it breaks down chemically. Bad fuel can cause problems in your fuel system. When you pour FUEL PRESERVATIVE & STABILIZER in your tank, oxygen is chemically isolated (preventing oxidation) and corrosive compounds are neutralized (stopping rust formation). Our special dispenser bottle will measure exactly for you with no waste. Contains NO alcohol. Use 1oz. per 3 gallons for normal maintenance, or 1oz. per gallon to thoroughly clean your fuel system. Features: **Keep fuel fresh for over 2 years. Cleans fuel lines in concentrated doses. Special container treats 96-gallons of fuel with no waste. Stops corrosion & prevents gum varnish formation.**

### Por Patch

Black or pearl (white)

**\$10.95**

POR PATCH is quite literally POR-15 in a tube. Like POR-15 it dries as hard as a rock, remains flexible, and once dry it is totally impervious to fuels and solvents. It's so tough it may actually add strength to weakened metal. It won't absorb moisture and swell like conventional body fillers. Try it, it's incredible. Use it to:

**Permanently seal seams, patch holes in steel, wood or plastic. Fix holes in fuel tanks.**

### Por-15 Boss Gloss

Lasts for months, not days!

**\$10.95**

BOSS GLOSS was created as the demand for a longer lasting vinyl and rubber protectant became apparent. What's the secret? Simple. Other companies put fewer solids in their products, which saves them costs and forces you to use more of their product more often. BOSS GLOSS took a different approach... putting more solids in our formula to provide you with a better product that works better and lasts longer. Compare for yourself.
